Rindolfo Barra Roa

Data Scientist

+569-59004553 | rincybarra@gmail.com | LinkedIn | GitHub | Providencia, Chile

Summary

Results-driven professional with 4 years of experience leading teams, process optimization, and analysis of key performance indicators (KPI's). Highly proficient in database management, predictive models, and data visualization, with expertise in tools such as SQL, Qlik Sense, Power BI, and Python. Eager to develop machine learning models to contribute to a forward-thinking organization committed to innovation and operational excellence.

Experience

- **Data Scientist** — *Arauco, Chile*
  ARAUCO [🌐] — 10/2024 - 04/2026
  - Create a predictive model for tensile index using parallel coordinate visualization, achieving an RMSE less than 2
  - Deploy machine learning models to predict critical process variables with GCP or Metris
  - Develop a heatmap of recovery boiler's smelt channels to identify blockages in the ducts based on heat transfer
  - Automatize process dashboard from Excel to Qlik Sense to visualize ARC Plant Performace
- **Data Engineer** — *Concepción, Chile*
  VRID [🌐] — 04/2024 - 10/2024
  - Database Management with PostgreSQL
  - Built ETL pipeline for processing data with Python
  - Creates GPT to evaluate Fondecyt Projects Applications

Projects

- **Analysis of air pollution data with Python** — *08/2024*
  Tools: API, Pandas, Sqlalchemy, psycopg2, Docker, Airflow — [GitHub]
  - Create ETL functions from a weather API with Python
  - Transformation with Pandas and data loading in Amazon Redshift
- **Multiclass classification to predict obesity levels based on lifestyle habits** — *07/2024*
  Tools: Numpy, Pandas, Matplotlib, Seaborn, Sk-learn — [GitHub]
  - Develops a Logistic Regression model, achieving 94 % on the training data
  - Implements Random Forest model, increasing accuracy to 98 %.

Skills

- **Languages:** English C, Portuguese B2
- **Programming Languages:** HTML, CSS, Python
- **Web Technologies:** ChatGPT, Copilot, Claude, Gemini
- **Database Systems:** SQL, MSSQL, PosgreSQL
- **Data Science & Machine Learning:** Numpy, Pandas, Matplotlib, Seaborn, Scikit-Learn, PyTorch
- **Cloud Technologies:** Amazon Web Services, Microsoft Azure, Google Cloud Platform
- **DevOps & Control de Versiones:** GitHub, Docker, Visual Studio Code

Certificates

- **Desafio Latam:** Data Scientist — *04/2025*
- **Coder House:** Data Analytics — *07/2024*

Education

- **Duoc UC** — *12/2025 - 06/2026*
  Data Science Diploma — Remote
- **TripleTen** — *03/2024 - 11/2024*
  Data Science Bootcamp — Remote
- **thePower** — *02/2023 - 02/2024*
  ThePowerMBA — Remote
- **University of Concepción** — *03/2013 - 10/2019*
  Chemical Engineering — Concepción, Chile
